

9th International Marine Biotechnology Conference (IMBC2010)

Qingdao, China
8th -12th Oct. 2010

Qingdao Huanghai Hotel

Under the auspices of International Marine Biotechnology Association (IMBA), the IMBC series is the primary international forum for marine biotechnology. IMBC2010 is a reunion for marine biologists, biotechnologists and scientific leaders from all over the world and is the 20th Anniversary of the conference series. It is our hope that the IMBC2010 will contribute toward the advancement of marine biotechnology and that new collaborations and friendships will be initiated here. This is the first IMBC to be held in China. Qingdao has a distinctive multicultural history and rich tradition of marine research and commercial operations.

Sessions include

- Sustainable Aquaculture: The Role of Biotechnology
